If some of the douchier characters of PIRANHA 3DD are anything like the douchier characters of PIRANHA 3D, The Weinstein Company's brand new video game could be a welcome bit of catharsis.

PIRANHA 3DD lets "players take the role of the bloodthirsty school of predators as they troll the shallow shores in search of soft morsels of helpless prey. This time, nothing and no one is safe from the flesh eating fish as they sink their razor sharp teeth into the visitors of the summer's best attraction, The Big Wet Water Park."

Here's some of the features you can expect while taking down the scantily clad patrons of The Big Wet Water Park

· **Feeding Frenzy** – Feed more and reach higher scores and multipliers.

· **2 Game Modes** – Guide your monstrous school in the Caves tearing your way to a new high score or Spring Break where everything in the lake is on the menu.

· **Deadly Hazards** – Look out for prey that fights back, poisonous jelly fish, exploding oil drums and much more!

· **Grow Your School** – Collect eggs to add more PIRANHAS and watch the flesh fly.

· **Collectibles** – Find cool stuff for big points.

· **2 Control Modes** – Use Tilt or Touch controls to chomp your way to terror.

You can catch the launch trailer below, and download the game on iOS and Android for $.99. PIRANHA 3DD, meanwhile, is in theaters this Friday, June 1.
