Capcom's zombie video game DEAD RISING 2 is coming out August 31 on Xbox 360, PlayStation 3 and PC. Read on for details and the trailer!

Capcom has the trailer for the sequel. Here's the game synopsis:

DEAD RISING 2 sees the player take on the role of former motocross champion Chuck Greene, who has come to Fortune City, America's newest gambling paradise, to compete in "Terror is Reality," a gruesome game show that dares contestants to survive zombie-filled environments for the delight of TV audiences around the globe. Chuck's motivation for taking part and risking life and limb is his daughter Katey, who has been bitten by a zombie. She requires a daily dose of Zombrex to prevent her from turning into a zombie. There's no denying that Zombrex works, but since it's the only drug of its kind on the market, its price is high. During his time in Fortune City a zombie outbreak occurs and Chuck must survive the onslaught of the undead for 72 hours. Pitted against two fearsome threats—tens of thousands of zombies and the constant countdown of the clock—while potentially rescuing other survivors of the zombie apocalypse, players must also unravel the greater conspiracy behind the outbreak and find the Zombrex necessary to stop Katey from joining the ever-growing zombie horde. Players will shoot, stab, carve and drive their way through enemies in order to beat the clock and survive 72 hours in the darkly comedic, no-holds-barred confines of Fortune City.
