Alex Dakoulas and his Dance Party Massacre line (previously profiled [here](#)) have taken FANGORIA to the floor.

Up now for pre-order, Dance Party Massacre x FANGORIA is available for limited time in a limited quantity (50!), and only at DPM. Creator and designer Dakoulas has all the details below:

I'm very excited to announce we've teamed up with horror royalty FANGORIA Magazine to give you an exclusive and original limited edition t-shirt design.

A world-renowned publication for horror news and entertainment, the cult favorite has been first in 'fright' since the 1970s. While here at Dance Party Massacre we love everything horror, we also appreciate brands and companies that have earned the right to be considered "classics" in their field. Fangoria has earned their cult status in popular culture for a reason, and we're just as excited to team up with such a kick-ass company as we are to put out a killer horror design.

*The concept for the t-shirt combines the classic Fangoria cover design, and reimagines it for Dance Party Massacre. In it, Dance Party Massacre is a real-life slasher movie surrounded by other horror-ible stories. Illustrated by powerhouse Matthew Skiff (the man behind such top sellers as *The Other Gloved One* and *The Horror Club*) we put everything from zombies, teens in peril, a monster scream queen and Frankenstein on it. The design is topped off with a Dance Party Massacre X Fangoria limited edition seal on the sleeve. The shirt will be printed on the same super-soft tees you've come to know from us, with the same quality printing and details.*

For 1 week only you can pre-order the design for over 20% off the regular price. Deal ends November 22 at midnight.

We have exclusive rights to sell this design online (you won't even be able to order it through Fango's website), and right now we're doing pre-orders on it for one week only. Not only is it at a discounted price, with this pre-order we are able to allow a wider range of sizes than we usually offer. This collaboration is a limited edition, and Dance Party Massacre will only be printing 50 tees. If the pre-order reaches that limit, you won't be able to buy from us after it.

To pre-order (see design below), get rad at [Dance Party Massacre](#) !
