An all-timer gets a fantastic Blu package.

Today, as part of their 100th anniversary celebration, Universal Studios announced the long in-demand arrival of Steven Spielberg's classic JAWS to Blu-ray. Complete with a new restoration and the highly praised, but as-yet-unreleased documentary THE SHARK IS STILL WORKING, JAWS hits August 14 in a Blu combo pack and over four hours of extras.

Here's the full rundown, as well as a look at the work behind the restoration!

- **THE SHARK IS STILL WORKING: The Impact & Legacy of JAWS:** All-new feature-length documentary featuring never-before-seen footage and interviews with cast and crew including Steven Spielberg, Richard Dreyfuss and Roy Scheider.
- **JAWS: The Restoration:** An all-new, in-depth look at the intricate process of restoring the movie.
- **The Making of JAWS:** A two-hour documentary featuring interviews with key cast and crew.
- **From the Set:** An insider's look at life on the set of JAWS, featuring an interview with Steven Spielberg.
