Chad Crawford Kinkle's SlamDance premiere looks to be the strange, swirling, off-kilter time we'd hoped.

"The pit wants what it wants." In JUG FACE, it wants Ada. Pregnant with her brother's child, Ada's face has turned up on the prophetic pottery of village potter Dawai. Unwilling to sacrifice herself, or her child, Ada risks unleashing the creature the jug and the immolated satiate.

JUG FACE stars Lauren Ashley Carter, BLADE RUNNER's Sean Young and Glass Eye Pix head/LAST WINTER director/actor Larry Fessenden. If you're in Park City, you can catch its world premiere on Wednesday, January 23 (tickets here).
