Written by FANGORIA Staff Tuesday, 22 May 2012 09:18

The MUTANT GIRLS SQUAD is invading the U.S. home market today as the outrageous Japanese action/horror/sci-fi/etc. opus arrives on DVD and Blu-ray. Fango's Michael Gingold got the chance to chat up co-stars Cay Izumi and Asami at New York City's Japan Society; see the first of our two-part video, shot and edited by Bill Hall, below!

Directed by a trio of Japan's most heedless filmmakers—ROBOGEISHA's Noboru Iguchi, HELLDRIVER's Yoshihiro Nishimura and YAKUZA WEAPON's Tak Sakaguchi—and produced by Sushi Typhoon, MUTANT GIRLS SQUAD is about a teenage girl who discovers she has special and bizarre powers that lead her into conflict with similarly body-armed enemies. Well Go USA

is releasing the discs, which include featurettes, filmmaker interviews and a prequel short film. Come back tomorrow for the second part of our video interview, and see our review of MUTANT GIRLS SQUAD
